

Toilet Paper Launcher (TPL)™

Use Instructions for your Toilet Paper Launcher

The Toilet Paper Launcher (which can launch toilet paper and other similarly sized streamer rolls) is a unique product designed to enhance the effectiveness of toilet papering a tree, celebrating a victory, marking a special occasion and for any number of other reasons. The TPL truly makes an age old right of passage easier and more fun by allowing the launch of a roll much further and higher, and with less effort than by using your arm only. Try it and we are sure you will agree.

How to Launch Your Toilet Paper or Streamer Roll

- 1) Separate the first portion of TP or streamer roll that is usually lightly glued together so that it can easily unroll while in flight.
- 2) Place your roll in the Holding Bucket so that the loose paper is coming from the top of the roll and hangs over several inches as shown to the right to ensure it unravels easily while in flight.
- 3) You may wish to try using the TPL different ways, but the following will work perfectly for most users: If right handed – after slipping your left hand through the wrist lanyard, grab the lower handle with your hand, and place your right hand about two inches above your left. Draw the TPL back over your right shoulder and swing it up and forward when you're ready to launch. If left handed – after slipping your right hand through the wrist lanyard, grab the lower handle with your hand, and place your left hand about two inches above your right. Draw the TPL back over your left shoulder and swing it up and forward when you're ready to launch you toilet paper roll or similarly sized streamer roll.

Get In - Get It Done - Get out

TP Launcher Safety Instructions

- 1) If under the age of consent, always have an adult present when TP'ing, Yard Rolling or House Wrapping.
- 2) Always ask a supervising adult for permission to TP their property before doing so.
- 3) If you are asked to stop TP'ing, always do so immediately and do not attempt to do so again unless given permission.
- 4) If asked to clean up after having TP'd, always safely do so to the best of your ability.
- 5) Never stand in the street to TP a tree (or anything else).
- 6) Never TP alone.
- 7) Always wear reflective clothing so that you can be seen by motorists and residents.
- 8) Do not wake up inhabitants by ringing/knocking at their door.
- 9) Never TP homes, cars, light poles, electrical poles or lines, or anything that could become damaged or cause a hazard or personal injury to you or others.
- 10) Always ensure that you utilize the wrist lanyard before using your TP Launcher. This will help to ensure that you don't accidentally lose grip of your TP Launcher.
- 11) Take any and all precautions to ensure that you are safe and that there is no damage to any property whatsoever. Please do not use the TP Launcher if you are not willing or able to abide by these common sense safety instructions.

Wrist Lanyard and Fasteners

Attach Wrist Lanyard by pushing through single hole at end of Handle

Fastener in place and ready to be tapped in

TP Launcher Assembly Instructions

- 1) Ensure that you have all the necessary parts and pieces: One (1) TPL Bucket, One (1) Handle, Two (2) Plastic Fasteners and One (1) Wrist Lanyard. Contact us if anything is missing.
- 2) It is best if an adult assists with the assembly of the product.
- 3) Push the Wrist Lanyard through the larger single hole and then loop the loose end through the other end of the lanyard. (Note: Please never use your TPL without first ensuring that the wrist lanyard is around your wrist).
- 4) Push the side of the handle with the two (2) holes into the opening of the bucket so all holes are aligned. It is meant to be tight so it make take some light pressure and maneuvering to ensure it is in completely.
- 5) Take one (1) of the fasteners and place it over one of the holes and push it in as far as you can.
- 6) **Tap the fastener in with either a small block of wood or a hammer, while holding the entire assembly in your hand. Do Not tap the fastener in with the entire assembly sitting on a hard surface or you may break it and void the warranty.**
- 7) Turn it over and do the same with the second fastener.
- 8) That's it! You're ready to use your TP Launcher. Enjoy!

Push Handle into Bucket and align Fastener(s)

Lightly Tap in fasteners with a small block of wood or hammer.
Hold in your hand – Do Not Place on Hard Surface

Safely Enjoy Your TPL With
Family and Friends
